# Health and Safety Policy

A healthy and safe work environment is fundamental to Jako Industries successful business operations.

Jako Industries will seek to comply with all applicable laws and regulations relating to occupational health and safety and will strive to continuously improve its safety performance.

To achieve its objective of ensuring that all company activities are performed in a safe and responsible manner that will minimise any risk to the health and safety of its employees, sub-contractors, clients and the general public, Jako Industries will:

- Provide regular occupational health and safety training for all employees;
- Provide safe working areas, equipment and procedures for all employees;
- Review work practices and areas regularly to ensure compliance with standards;
- Continuously monitor our performance and respond to feedback gained; and
- Provide health and safety information to our clients about the products we use.

Jako Industries will hold all levels of management accountable for health and safety issues and will ensure that every employee understands their responsibility to follow safe working practices that will protect not only their own health and safety but also that of their fellow employees.

Management and employees working together to develop and maintain a high level of awareness will result in the safest possible working environment.

There is no task so urgent or important that we cannot take the time to find a safe way to do it.

Vic Jakovich  
Managing Director
